

AlfaGT Pro

Environmental Monitoring System

Smart Monitoring. Critical Assurance.

AlfaGT Pro is an advanced wireless temperature monitoring system designed for laboratories, hospitals, pharmaceuticals, and critical environments.

Real-time Monitoring

24/7 continuous monitoring of temperature and humidity

Instant Alerts

WhatsApp & Voice Call alerts for immediate action

Cloud Based

Secure data storage, access anytime, anywhere

Ultra Low Power

Long battery life with low maintenance

Direct to Cloud

WhatsApp & Voice Call Alert

Reliable & Secure
IP56 Protection

HOW IT WORKS

Sensors collect temperature & humidity data and send it wirelessly to the gateway. Data is securely stored in the cloud and accessible via web portal & mobile app. When an alert occurs, you will be notified via WhatsApp & Voice Call instantly.

KEY FEATURES

- ✓ LoRa Long Range Wireless Technology
Up to 5km (Line of Sight)
- ✓ Real-time Monitoring & Data Logging
Automatic data logging with historical records
- ✓ Instant WhatsApp & Voice Call Alerts
Faster and more reliable.
- ✓ Cloud Platform & Mobile App
Access your data anytime, anywhere
- ✓ Easy Installation & Low Maintenance
Wireless, battery-powered, plug & play
- ✓ Secure & Reliable
IP56 protection for harsh environments

SUITABLE FOR

Laboratories

Blood Banks

Pharmaceutical
Storage

Cold Rooms
& Freezers

Incubators &
Water Baths

Warehouses &
Storage

Hospitals &
Healthcare

Offices &
Buildings

Shopping Malls

Homes

Smarter Monitoring Stronger Protection

Protect what matters most
with intelligent monitoring.

Faster Response Better Outcomes

Instant alerts ensure quick
action and minimum risk.

Secure Data Complete Control

Your data is safe, traceable
and always available.

Long Battery Life Lower Cost

Designed for efficiency
and long-term reliability.
