

WHY CHOOSE LEUCOFILL® ?

PROVEN FILTRATION TECHNOLOGY

Advanced membrane technology ensures high safety and performance.

RELIABLE CLINICAL PERFORMANCE

Consistent results with excellent blood component recovery.

DESIGNED FOR MODERN TRANSFUSION PRACTICE

Solutions for both bedside and laboratory applications.

INTERNATIONAL STANDARDS

CE certified manufacturing with strict quality control.

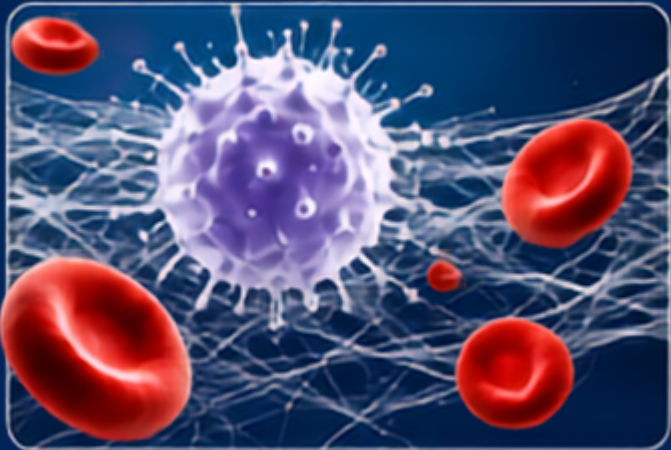

TRUSTED BY PROFESSIONALS

Used by blood centers and hospitals worldwide.

ABOUT LEUCOFILL

LeucoFill® Leukocyte Reduction Filters are designed for the filtration of leukocytes and microaggregates from blood components. The product range includes filters for red cell components and platelet components, with models designed for bedside use and blood center/blood bank use.

PRODUCT FEATURES

Leukocyte Reduction
Designed to remove leukocytes from blood components.

Microaggregate Reduction
Designed to remove microaggregates during blood component filtration.

Single Use
For single use only. Do not re-sterilize or reuse.

Aseptic Use
Use aseptic techniques during preparation and filtration.

PRODUCT RANGE

Four solutions for your blood filtration needs

FTS-RC102

RED CELL FILTER FOR BEDSIDE USE

- For whole blood and packed red cells
- Bedside use
- High leukocyte removal
- High RBC recovery

FTS-RC202

RED CELL FILTER FOR BLOOD CENTER / BLOOD BANK USE

- For blood bank processing
- Designed for large volume filtration
- High leukocyte removal
- High RBC recovery

FTS-PL110

PLATELET FILTER FOR BEDSIDE USE

- For platelet transfusion
- Bedside use
- High leukocyte removal
- High platelet recovery

FTS-PL210

PLATELET FILTER FOR BLOOD CENTER / BLOOD BANK USE

- For blood bank platelet processing
- High leukocyte removal
- High platelet recovery
